AGRIPRO® WHEAT VARIETY

AP503 CL²

Two Genes for Tolerance

AP503 CL2 is the first hard red winter wheat with two genes for tolerance to the Beyond family of herbicides. This means greater options in weed control with both fall and spring herbicide applications.

Your best source of information on wheat varieties is your local AgriPro Associate. To find out more, call 866-YIELD AP or visit AgriProWheat.com.
